Experience

Center for People and Environ (CPE)

Dhaka, Bangladesh

Research Officer

02/2022 - Present

A research organization focused on LLA, innovation, and evidence-based research

- Lead integrated digital, IT, and platform ecosystems (web, mobile, servers, UI/UX, analytics) ensuring security, high performance, and user-centric innovation while driving system development and optimization.
- Direct multidisciplinary research and data-driven programs in environmental and public health, overseeing monitoring (air/water), advanced analytics (R, GIS, GEE), and producing high-impact reports, policy briefs, and publications.
- Manage end-to-end operations, including field execution, stakeholder coordination, events, communications, and strategic outreach (design, media, and documentaries), ensuring timely delivery, quality assurance, and measurable organizational impact.

South Asian Research HUB

Dhaka, Bangladesh

Web Developer & Research Secretariat

01/2023 - Present

A research hub focused on various social and environmental topics in South Asia

- Write, edit, and manage research articles, reports, and publications, including DOI/ISBN/ISSN generation, Web platform & OJS journal handling.
- Oversee editorial processes such as peer review tracking, author/reviewer coordination, and content management.
- Manage digital platforms and secretariat functions, including meetings, records, and stakeholder communication.

People's Media

Dhaka, Bangladesh

Documentary Producer & Media Specialist

03/2020 - 12/2021

A media organization focusing on environmental and social issues

- Produce and direct environmental documentaries, including filming (DSLR, drone, audio), interviews, and field coordination.
- Plan and execute production workflows such as scripting, storyboarding, location management, and team coordination.
- Edit and manage post-production (Premiere Pro, color, sound, subtitles), ensuring accurate, research-based storytelling for digital platforms.

Grameenphone

Dhaka, Bangladesh

Internship

10/2020 - 07/2021

One of the leading telecommunications service providers in Bangladesh

- Supported cloud and network integration to ensure high availability of critical applications.
- Managed system maintenance, including updates, backups, and disaster recovery planning and testing.
- Implemented secure access controls, monitored network performance, and performed root cause analysis to prevent outages.

Education

American International University Bangladesh (AIUB)

07/2016 - 11/2020

B.Sc. in Computer Science and Engineering

University of the People (UoPeople)

02/2025 - Present
